# We all have a dream for our home and with James Hardie, It's Possible™

If you're looking for a versatile, low maintenance with a natural and beautiful texture, look no further than **Hardie®** fibre cement cladding. It's the facade of choice for builders, architects and homeowners alike, protecting and beautifying millions of homes worldwide.

- Most natural look with premium colour range
- Low maintenance thanks to unique ColourPlus™ Technology
- Up to 20 % faster installation

**15 Year**  
Warranty

# Introducing the Hardie® Plank products

**Hardie® Plank** products include two profiles, made from advanced material fibre cement. With an A2-s1, d0 fire rating, our boards are non-combustible and offer the best fire protection possible for any coloured facade board.

## Hardie® Plank fibre cement cladding

Dimensions: 3600 x 180 x 8mm  
Weight per piece: 7.4kg  
Pieces per m²: 1.85  
Visible surface: 150 - 180mm  
Colours: 21  
Textures: Cedar and Smooth

## Hardie® VL Plank fibre cement cladding

Dimensions: 3600 x 214 x 11mm  
Weight per piece: 10.5kg  
Pieces per m²: 1.52  
Visible surface: 182mm  
Colours: 8  
Textures: Cedar

**BBA Certified**  
Hardie® cladding has been assessed by the British Board of Agrément and has been awarded BBA certificate number 04/4147.

**Innovative interlocking system**  
Hardie® VL Plank profiles offer hidden fixing, thanks to our innovative tongue and groove system that does not require any additional accessories for fixing and can easily be nailed.

# Create interest with installation styles

Installation is quick and easy, offering maximum flexibility with options to fit our boards horizontally, vertically, ship-lapped or open jointed.

## Hardie® Plank cladding

Create a classic finish with Hardie® Plank boards in horizontal lap, vertical hit and miss or open joint styles, playing around with different colours and textures.

Hardie® Plank cladding  
vertical hit and miss

Hardie® Plank cladding  
horizontal overlap

## Hardie® VL Plank cladding

The seamless interlock of Hardie® VL Plank cladding epitomises architectural modern design, perfect for both horizontal and vertical installation. The clip-less system is 20% faster to install than comparable interlock solutions.

# Choose long-lasting colour

The **Hardie®** fibre cement range is available in two textures and a variety of vibrant colours using **ColourPlus™** Technology – our multi-coat, baked-on finish that gives a durable, fade-resistant finish that lasts for years to come. Combining distinct beauty and high performance in a way that no other finish does.

- 21 colours for **Hardie® Plank** cladding
- 8 colours for **Hardie® VL Plank** cladding
- Unique **ColourPlus™** Technology finishes

# The finishing touch

Trim is that final touch that completes your home's design. Accentuate corners, columns, doors, windows and more with our complementary trims.

**Hardie® NT3® Trim fibre cement profile**  
for exterior corners:  
Dimensions: 3655 x 90/140 x 25mm

**Hardie™ Plank MetalTrim™ profile**  
for exterior corners:  
Length: 3000mm

**Hardie® NT3® Trim profile**  
for interior corners:  
Length: 3000mm

**Hardie® VL Plank 2-Part profile**  
for exterior corners:  
Length: 3000mm

# Design flexibility

Hardie® Plank lap cladding combined with brick – Colour: Iron Grey

Hardie® Plank cladding in a combination of vertical hit and miss and horizontal overlap look – Colours: Boothbay Blue and Arctic White

Hardie® VL Plank cladding installed horizontally – Colour: Arctic White

Hardie® VL Plank cladding installed horizontally – Colour: Anthracite Grey

# Home renovations

This stunning refurbishment saw an extension and new build garage block transformed with render and Soft Green **Hardie® Plank** cladding, brought together to create an elegant countryside retreat.

The property, located near Galleywood Common in Chelmsford, was originally a self-build home constructed in the 1960s. Over time, the house aged badly and the owners decided a full refurbishment was due.

Before

Hyland Homes was commissioned to overhaul the property through construction of a large extension and detached garage block. The end result is a complete transformation into what is now a highly desirable, classically designed home.

After

” **Hardie® Plank** is our ‘go to’ recommendation for any homeowner wanting a classic facade that endures.  
Premium Stockist

” Mixing traditional with modern was key to our design and so we quickly switched to **Hardie® VL Plank** for the crisp, clean lines to contrast with the exposed stone.

Private Homeowner

This traditional home in Harrogate was extended at the rear with a new double-storey extension and contrasting tongue and groove **Hardie® VL Plank** cladding on the upper level.

The homeowner chose Hardie® VL Plank boards for their fresh, symmetrical look and low maintenance properties.

Here, Anthracite Grey in Cedar texture complements the local stone to offer a strong contrast. The end result is a striking renovation that beautifully captures the character of the home's local heritage.

# Future-proof your home

Choosing the right cladding for your home is an important decision, with each cladding type offering a variety of options in texture, colour, size, finish and installation method. Ultimately, the choice of facade material may be decided by a number of considerations.

Hardie® Plank range

Wood

**Durability**  
Thanks to its special yet natural composition, James Hardie fibre cement can withstand the effects of the weather in a wide variety of climates. For a permanently beautiful and durable facade.

Wood cladding and uPVC may be susceptible to fading, cracking and sagging over time.

**Low maintenance**  
Hardie® Plank range comes with ColourPlus™ Technology, a multi-coat, baked-on finish that is fade-resistant and does not require regular repainting.

As a result of fading, painted wood needs to be repainted every 5 years, and stained wood treated every 3 years. uPVC cladding may also be susceptible to fading, discolouration and cannot be repainted.

Hardie® Plank range

Wood

**Fire resistance**  
Hardie® Plank range will not ignite when exposed to direct flame or extreme heat; it is non-combustible with a fire classification of A2-s1, d0 – the highest possible fire rating for a coloured facade board.

Combustible material like wood burns easily and very quickly, producing significant amounts of heat and smoke. uPVC cladding can melt and warp when exposed to fire.

Hardie® Plank range

Wood

Hardie® Plank range

Wood

**Moisture resistance**  
Tried and tested, our boards offer long-lasting protection and stand up beautifully, whatever the weather.

Humidity and precipitation may cause paint to crack and peel prematurely when using wood-based products as they expand and contract due to changes in climate conditions. Moisture may also cause rotting, swelling and shrinkage.

uPVC cladding is also known to become brittle and susceptible to cracking when cold.

**Pest resistance**  
Hardie® Plank range is resistant to pests and rodents, which can cause considerable damage to wooden facades.

Both wood and uPVC cladding are vulnerable to pest infestation. In the long run, the material would need to be replaced.
